

Employee Assistance Programme

EAP

CLS offers effective, confidential and early intervention counselling, mediation, critical incident management and training in workplaces.

Off-site counselling facilities are available. CLS is made available by the employer to all employees and their immediate families and offers support through organisational change, personal and workplace issues and interpersonal conflict.

CLS: helping employees feel valued for the work they do, knowing there are real solutions when times are difficult.

Services are tailored to suit organisational needs. CLS is based on a concern for the high cost to industry and the wider community, in both human and financial terms, when personal challenges impact on work practices. All contact and
