

Resident/Client Support

CLS offers psychosocial/counselling support services to residents/clients of Aged Care Facilities and In-home Care Agencies.

Arrangements can be made to support aged, frail and disabled residents/clients through a range of issues including:

Adjustment
Loss
Family Conflict
Depression
Loneliness
Acceptance
Stresses
Grief
Unresolved issues

Resident/Client Support:

When we are faced with significant change to our lives, it often helps to have an opportunity to talk those things through, to have someone to share our thoughts. CLS will provide a qualified and experienced counsellor to access at times when support is needed.

Care agencies are able to arrange for CLS counsellors to provide a short or long term arrangement of support for the person in their care.
